An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: After claim 20 and before claim 22, insert – Claim 21 (Canceled) --.

Allowable Subject Matter

Claims 1-20, 22 and 23 allowed.

The closest relevant art is Ricci (5,165,395) wherein Ricci discloses a self powered wearable personal air purifier (1) having a main frame, an air conduit disposed in a longitudinal direction along the main frame having an inlet and an outlet (see Figs. 1 & 4), a power source (6) and body attaching means (4) wherein the air purifier is removably attachable to a user (see col. 2, lines 25-29, col. 2, line 42 through col. 3, line 29, col. 4, lines 4-21). Ricci further discloses air baffle disposed transversely in the main frame of the purifier (see Fig. 3). Claims 1-20, 22 and 23 of this instant patent application differ from the disclosure of Ricci in that the instant claims call for a wearable personal air purifier having an air blocking sheet disposed over the air conduit in forced contact wherein an inward pressure is applied to the air blocking sheet by the stretching of the air blocking sheet over a set of walls surrounding the air conduit.
